The Property Buyer's Guide

Welcome to Our Guide

Whilst most Brits would love a holiday home, others are planning a whole new life abroad , for many the dream of property abroad is purely their motivation ..

Unfortunately though for many the life changing dream of living abroad is diminished once calculating , planning and just beginning to understand the endeavors of sending money abroad . At Lowcost Fx we have 20 years combined experience in not only the UK Banks infrastructure but that of understanding banks internationally and what their requirements will be .

We help you by taking some of the risk out of your property purchase. Once you have secured the property of your choice, we can ensure that you are not exposed to any unfavorable currency movements by monitoring the fluctuations in the market on your behalf.

We endeavor to give you a peace of mind and a designated person to work with you to ensure the whole transaction is carried out smoothly and guide you through every step of the process.

We are always here to help. You can contact us directly on 0207 444 0000 or email us at info@lowcostfx.com. We will be delighted to assist you with your enquiry.

Good luck with your overseas property purchase!

Understanding Currencies

The mechanics of your currency transfer are simple. It can all be organised online or over the phone in a few minutes. For the unwary, however, there are risks. There is a 50% chance of you losing money — potentially a lot of money — if you don't plan for currency risk.

Over the next few pages we will explain exactly how you can overcome currency risk and successfully complete your property purchase.

Our Expertise

Our founders are passionate about the business of international payments and technology, they also realise that most importantly we operate in a people driven industry.

Lowcostfx was incorporated in 2017 in London and today is growing offices throughout Europe. Our team has over 15 years industry experience, and has been fortunate enough to work with some of the biggest industry leaders for foreign currency payments processing billions of pounds annually.

We also recognize that customer service is paramount and for that reason our teams main focus is that we offer exceptional service to all of our clients & partners.

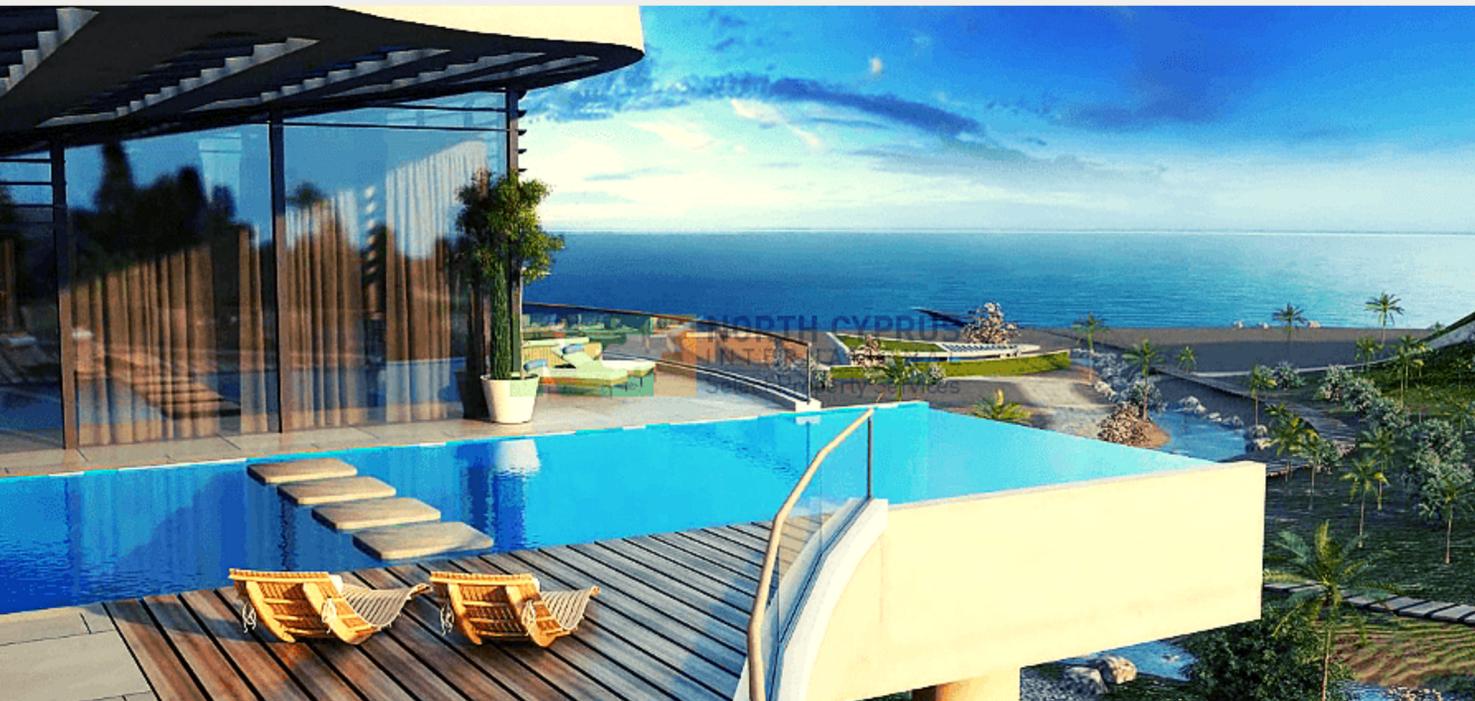

Buying Your Foreign Currency

Generally speaking, when you are planning your holiday or looking at properties abroad, you probably used an ATM for cash or you changed money at the Airport with your Debit or Credit card.

Of course that works for a few hundred pounds, but when you are exchanging tens of thousands you need to put a bit more thought into it. Using either your bank or a specialist like Lowcostfx that will generally save you thousands on the exchange and work closely with you to ensure that your funds are transferred quickly and smoothly.

You transfer your pounds to a Lowcost fx partner bank account.

We buy the required amount you require in Euros, Dollars, Turkish lira, Thai baht, etc and pay it to the property seller on your instruction.

We are also highly efficient in regular payments so whether it's paying a mortgage abroad or transferring pension funds, we are always on hand to help.

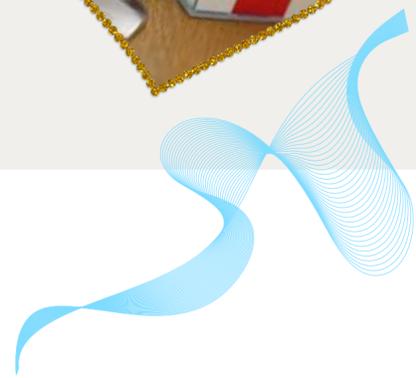

One of our relationship managers will work with you to ensure that we are keeping you happy and saving you time and money !!!

There is though always a risk of adverse currency movement and this is where our strengths lay.

The Property Buyer's Guide

Currency movements

As with most things, currency will go up and down! When you are talking about a property purchase in the hundreds of thousands, that movement can cost you thousands, maybe even the value of that small family car you were looking to buy, to go alongside your new home .

News that affect currency

If you follow the currency markets, you'll soon learn which economic and political factors have most impact.

Interest rates decisions are the most important economic factors, but you will also hear the same No trange names coming up time and time again, such as the Purchasing Managers Index and “non-farm payrolls.”

It can be fascinating to follow the movements of currencies, especially when it will affect your property budget.

The Property Buyer's Guide

Specialist Vs Bank

No one can REALLY predict where currency movements are going, even the best economists in the world get it wrong. But here at LowcostFx we are specialists in mitigating against the risk by using a product called a 'Forward contract'.

Basically all this is, is a method of securing the rate you want to pay against the property that you want to purchase using a small deposit – with no additional cost !!

We just take the risk out of the game. As you can see from the graph Currency is volatile and we leave nothing to chance.

Private client corporate service

Our Private clients can expect to receive the same benefits and rates as those transacting for corporate purposes.

Whether you're making a one off large transaction i.e. for the purchase of a property; or perhaps it's monthly mortgage payments; you can rest assured that your money is secure, will be received by your beneficiary in a timely manner and that the best possible exchange rate was achieved.
